

TolPro 4.0

Important Information

„TolPro“ software was carefully and thoroughly developed. Nevertheless, inaccuracies between known values and the required total tolerances can appear in the calculation.

Some of the reasons are the following:

- ◆ Different types of shrinkage, orientation- and crystallisation ranges in the piece.
- ◆ Faulty inputs for
 - molding dependent dimensions
 - Material types

The manufacturer gives notice that it bears no warranty or legal responsibility nor any liability for any consequences resulting from false information hereby given.

We are grateful to our customers for the submission of any possible irregularities found in the above.
